REISSUE: The 2006 Collection District to 2006 Statistical Local Area Concordance file (CD2006_SLA2006.csv) has been updated to correct two errors in the file.

DESCRIPTION

The Australian Standard Geographical Classification (ASGC) is a hierarchical classification system of geographical areas and consists of a number of interrelated structures. It provides a common framework of statistical geography and enables the production of statistics which are comparable.

The ASGC 2006 has a date of effect of 1 July 2006.

The product **1216.0.15.002 ASGC 2006 Concordances** contains six separate concordance files. These files are a comma delimited and include a metadata sheet showing the file format.

2001 CD to 2006 SLA Concordance

This file assists in the conversion of ASGC Edition 2001 Collection Districts (CDs) to ASGC Edition 2006 Statistical Local Areas (SLAs). This concordance does not include Water CDs and those in Off Shore, Shipping or Migratory categories.

2006 CD to 2006 SLA Concordance

This file assists in the conversion of ASGC Edition 2006 Collection Districts (CDs) to ASGC Edition 2006 Statistical Local Areas (SLAs). This concordance includes Water CDs and those in Off Shore, Shipping or Migratory categories.

2001 SLA to 2006 SLA Concordance

About this Release

Concordances consists of 4 zipped comma delimited files for intercensal editions and 5 zipped comma delimited files for census editions of the ASGC. These are:

- current CD to current SLA concordance (in census years only)
- previous CD to current SLA concordance
- a current LGA to current SLA concordance
- a previous year SLA to current SLA concordance
- a concordance between all levels of the current ASGC edition.

These concordances do not concord between the ASGC and non-ASGC geographies such as postcodes.

The concordances are available over the web from ASGC 2005.

Further information may be obtained from Geography by emailing geography@abs.gov.au.
